To Whom It May Concern:

I have grave concerns with proposal 04-233. As a Christian who financially supports my local Christian Radio station I do not want those who do not share my views having a voice in what type of programming my Christian station airs.

I certainly don't expect my views to dictate what non-Christian radio stations air. For people of opposing views to be in a position to force their options on others would be a violation of our first amendment rights.

Proposal 04-233 is a bad proposal it should be rejected.

Sincerely,

Bruce E. Dailey
